Design System & Visual Language

The color palette, typography, and design tokens that define the Taggo brand identity across all touchpoints.

Brand Colors

A vibrant yellow primary (#F0DD50) paired with neutral grays for a clean, modern, and trustworthy look. The palette reflects energy and reliability — core to the Taggo brand promise.

Primary	Secondary	Accent	Dark	White
#F0DD50	#9FA19E	#83847F	#1A1A1A	#FFFFFF

Typography

Inter is the primary typeface — clean, legible, and optimized for mobile interfaces. Used across all weights from Regular to Bold for hierarchy and readability on small screens.

TYPE SCALE — INTER

Taggo 28px Bold — Display

Book a Ride 20px Semi Bold — Heading

Car Rental Details 16px Medium — Subheading

Professional drivers available nearby 14px Regular — Body

Estimated arrival: 3 min 12px Regular — Caption

AED 25.00 11px Medium — Label

Design Principles

Every design decision is guided by clarity, speed, and trust. The interface prioritizes fast task completion, transparent information, and a sense of safety throughout the user journey.

CLARITY & SPEED

Clarity & Speed

- Map-first interface — location context is always visible
- Bottom sheet progressive disclosure — show only what's needed
- Under 30s booking — minimum taps from open to confirmed
- Persistent navigation bar for instant service switching
- Skeleton screens & optimistic UI for perceived speed

TRUST & SAFETY

Trust & Safety

- Upfront fare — no hidden charges or surge surprises
- Driver photo, name, rating, and car details visible before ride
- Live GPS sharing with emergency contacts
- Verified driver badges with background check indicators
- In-app SOS button accessible during every ride
