Key Screens & User Flows

70+ screens across User App and Driver App — covering onboarding, ride booking, rental, cargo, payments, profile management, and more.

Home & Discovery

The home screen serves as the central hub — quick access to all services (Ride, Rental, Cargo), real-time promotions, wallet balance, and an Explore UAE section for discovering popular destinations.

HOME SCREEN — HUB PATTERN

Home Screen Structure

→ Search bar with hamburger menu
→ Service cards: Ride, Rental, Cargo (swipeable)
→ Active ride / rental status card
→ Wallet balance & quick top-up
→ Explore UAE — popular destinations grid
→ Promotional banners & offers
→ Bottom navigation: Home, Activity, Wallet, Profile

Booking & Ride Flow

End-to-end ride booking — from location search and vehicle selection to fare confirmation, driver matching, live tracking, and trip completion with rating.

LOCATION SELECTION

Location Selection

Map View → Pin Pickup → Search Drop-off → Confirm Route

- Full-screen map as primary interface
- Draggable pin with address auto-resolve
- Search with recent & saved locations
- Route preview with distance & time estimate

RIDE IN PROGRESS

Live Ride Tracking

Driver Matched → En Route → Arrived → In Ride → Complete

- Real-time driver location on map
- Driver card: photo, name, rating, car details
- Dynamic Island integration for at-a-glance ETA
- SOS button & share ride option visible throughout

Rental & Cargo

Car rental with browsable vehicle catalog, detailed specs, and calendar scheduling. Cargo with package tracking, weight categories, and delivery confirmation.

CAR RENTAL

Car Rental Screens

15+
Screens

3
Booking Paths

- Car catalog with grid/list toggle
- Detailed car page: specs, photos, pricing
- Calendar picker with availability
- Rental wallet & plan management
- Active rental tracking

CARGO DELIVERY

Cargo Delivery Screens

8+
Screens

4
Package Types

- Package detail input with weight categories
- Vehicle matching based on cargo size
- Pickup & delivery scheduling
- Real-time delivery tracking
- Delivery confirmation with photo proof

Profile & Activities

Complete profile management with ride history, trip receipts, membership plans, wallet, saved addresses, and activity tracking.

PROFILE & HISTORY — 10+ SCREENS

Profile & Activity Hub

→ User profile with edit & avatar
→ Ride history with detailed receipts
→ Membership plans (Silver, Gold, Platinum)
→ Wallet: balance, transactions, top-up, payment methods
→ Saved addresses & favorites
→ Settings: language, notifications, privacy
→ Help center & support

Payment Methods

Driver App

A dedicated companion app for drivers — request queue, ride acceptance, navigation, earnings dashboard, and driver profile. Designed for one-handed use.

DRIVER EXPERIENCE — SEPARATE APP

Driver App Screens

→ Request queue with accept/decline actions
→ Navigation with turn-by-turn directions
→ Ride in progress with passenger info
→ Earnings dashboard: daily, weekly, monthly
→ Driver profile & rating history
→ Vehicle management & documents
→ Availability toggle & schedule

Design Considerations

- One-handed use while driving — large touch targets
- High-contrast UI for outdoor visibility
- Audio cues for new ride requests
- Minimal cognitive load — critical info only
