Services & Key Features

A multi-service transportation ecosystem I designed end-to-end — from user research and information architecture through final UI, prototyping, and developer handoff specs.

Live Ride Booking

Book a ride in under 30 seconds. Intelligent dispatch matches the nearest driver instantly, reducing wait times to under 3 minutes. Real-time GPS tracking, multiple vehicle categories (Economy, Comfort, Premium), and transparent upfront pricing.

CORE SERVICE — 12 SCREENS

Ride Booking Flow

Home → Set Pickup → Set Drop-off → Choose Vehicle → Confirm Fare → Match Driver → Live Track → Arrive → Rate Trip

Vehicle Categories

→ Economy — affordable daily commutes
→ Comfort — extra legroom, better cars
→ Premium — luxury vehicles, top-rated drivers
→ VIP — chauffeur service, priority pickup

Key Design Decisions

- Map-first interface — location is the primary interaction

Car Rental

Browse and rent vehicles by the day, week, or month. Rental wallet system with plans, detailed car specs, and seamless booking with calendar-based availability and pickup/drop-off scheduling.

BROWSE CARS

Browse & Filter

- Grid & list view toggle for car catalog
- Filter by brand, type, price range, fuel type
- Car detail cards with specs (seats, transmission, fuel)
- Rental wallet with balance & plans
- Saved favorites for quick re-booking

15 screens covering browse, detail, and comparison flows

BOOKING FLOW

Booking Flow

Select Car → Pick Dates → Choose Plan → Add-ons → Payment → Confirmation

- Calendar-based date picker with availability
- Daily, weekly, monthly plan options
- Insurance & add-on selection
- Pickup & drop-off location scheduling

Cargo & Delivery

Reliable cargo transport for packages and goods. Various vehicle sizes — from small parcels to large shipments. Package tracking, weight categories, and delivery scheduling with real-time status updates.

CARGO SERVICE — 8 SCREENS

Cargo Delivery Flow

Package Details → Weight Category → Pickup Location → Drop-off → Vehicle Size → Schedule → Track Delivery

Package Categories

→ Documents & small parcels (0–5 kg)
→ Electronics & fragile items (5–20 kg)
→ Furniture & large items (20–100 kg)
→ Commercial shipments (100+ kg)

- Real-time package tracking with status updates
- Photo confirmation at pickup & delivery

VIP & Airport Transfer

Premium ride experience with luxury vehicles, professional chauffeurs, and priority pickup. Dedicated airport transfer service with flight tracking, meet & greet, and pre-scheduled pickups.

VIP SERVICE

VIP Service

- Luxury vehicle fleet (Mercedes, BMW, Lexus)
- Professional chauffeurs with 4.9+ rating
- Priority pickup — no wait time
- In-app amenity preferences (water, music, temp)
- Dedicated concierge support

AIRPORT TRANSFER

Airport Transfer

- Flight number tracking with auto-adjusted pickup
- Meet & greet with name board option
- Pre-scheduled pickup up to 30 days ahead
- Fixed rates per emirate — no surge
- Luggage capacity matching

Additional Services

Car recovery for breakdowns and emergencies. AI-powered assistant for smart ride suggestions, fare estimates, and personalized recommendations.

CAR RECOVERY

Car Recovery

- Emergency breakdown request in 2 taps
- Live tow truck tracking
- Photo documentation of vehicle condition
- Insurance integration & claim assistance
- Estimated arrival time with real-time updates

AI ASSISTANT

Taggo AI Assistant

- Smart ride suggestions based on history & time
- Instant fare estimates via conversational UI
- Route optimization recommendations
- Personalized promotions & loyalty rewards
- Natural language booking — "book a ride to the airport"
