Impact & Metrics

Quantified design output and production project scale

01 —

By the Numbers

500+ Total Screens Delivered	**20+** Reusable Components	**50+** Component Variants	**147** Prototype Screens
122 Hi-Fi Mockups	**39** Wireframes Built	**191** Design Hub Assets	**5** Core User Flows

02 —

Product Interface Coverage

- ✓ 15+ product feature areas designed and tested end-to-end
- ✓ 22 distinct e-commerce service categories integrated
- ✓ 2 complete digital platforms launched (iOS/Android Buyer + Responsive Web Vendor Portal)
- ✓ Structured 7-step onboarding funnel guiding vendor sign-ups
- ✓ 4 unique AI-powered interactive feature interfaces built
- ✓ Full user state coverage (including 404, Under Maintenance, and dynamic loading feedback state maps)

Process & Business Impact

Research-Driven Design

Every screen is grounded in user research, persona mapping, and journey analysis — ensuring designs solve real user problems.

System-First Approach

Our modular component library with 50+ variants reduced design inconsistencies and accelerated the design-to-development pipeline.

Complete Handoff

Highly structured Figma delivery with clear page hierarchy, named layers, and flows — ready for developer execution.
