Services & Features

A breakdown of the platform capabilities designed across all user portals — from public discovery to clinic operations and platform administration.

Public Website

Clinic Discovery & Search

Browse clinics by city, specialty, and services — with search, filtering, and detailed profiles.

Doctor Listings & Profiles

Search and view doctors with qualifications, specialties, availability, and reviews.

Service & Specialty Listings

Browse healthcare services and specialties with descriptions and pricing.

Blog & Content Hub

Healthcare articles, blog posts, and educational resources.

Pricing Page

Transparent pricing tiers for clinic subscriptions and platform features.

Authentication

Sign in, register, clinic sign-in with validation states and error handling.

7-Step Booking Flow

1. Service Selection

Choose desired healthcare service with clear pricing and descriptions.

2. Doctor Selection

Pick preferred doctor based on availability and specialization.

3. Date & Time

Interactive calendar with real-time available time slots.

4. Patient Details

Patient info form with smart validation and auto-fill.

5. Review

Complete booking summary with edit capabilities.

6. Payment

Secure payment with multiple payment methods.

7. Confirmation

Booking confirmed with details and next steps.

Edge Cases

Slot unavailable, payment failed, cancel, reschedule, waitlist, guest checkout.

Patient Portal

Dashboard & Bookings

Overview, upcoming appointments, booking management, and history.

Health Records

Documents, health history, and medical records management.

Payments & Reviews

Payment history, invoices, and doctor/clinic review system.

Clinic Dashboard

Overview & Analytics

Real-time KPIs — appointments, revenue, patient volume, reports.

Staff & Services

Doctor management, earnings, service catalog, scheduling, calendar.

Operations

Patient registry, billing, claims, compliance, roles, messaging, reviews.

Admin Panel & Doctor Portal

Platform Admin

Bird's-eye view of clinics, bookings, payments, reviews, enquiries, and services.

Doctor Portal

Personal dashboard and schedule management for healthcare professionals.

Registration Flows

5-step clinic registration with validation, loading states, and confirmation.
